Doing nothing is not an option. Therefore, we want your opinion on which of these two options you would prefer us to pursue. We would urge you to give us your opinion as, with a significant level of response, we can legitimately commit to being guided by your views in making our decisions on the preferred way forward.

- Please complete the attached slip below and return it to us at the Freepost address shown on it.
- If more than one person in your household wishes to participate, please feel free to photocopy the slip but only one slip per person.
- We require the contact details to be filled in as this survey is for Eastbourne residents only and we reserve the right to make checks as to the residential validity of respondents.
- The slips will be returned to the Council’s Monitoring Officer and will be opened and counted in the presence of one of the Council’s Independent Standards Members.

PLEASE NOTE: This is an informal ballot for residents within the Borough of Eastbourne only.
